

2023 Mentorship Program

Why Mentorship?

The WIM/WiN-SK mentorship program provides support and awareness to both professionals and companies to create a supportive network to attract, retain and grow the number of women in the Mining and Nuclear industries.

Interested in becoming a Mentor or Mentee? Here's what you need to know:

- WIM-WiN-SK offers a 6-month Mentorship Program beginning March 29.
- Selected participants will be matched with a mentor whose strengths and experience best aligns with their individual needs, goals, and competencies.
- Engaging virtual and in-person development events.
- The minimal time commitment is 1-2 hours per month.

Are you a good fit?

WIM-WiN-SK is looking for mentors from a mix of backgrounds, genders, and career paths.

Mentees must identify as women, and are currently employed or working towards a career in the Saskatchewan mining or nuclear sector.
