

# Project Geologist (38605)

Location: Saskatoon, SK

In support of Cameco's exploration projects, you will be leading the execution of exploration drill programs in search for the next world-class uranium deposit. You will be responsible for the planning and execution of cost-effective exploration programs, both in an office and field environment. You will be accountable for the quality of the technical accuracy and execution of exploration projects, while incorporating guidelines from exploration management and other technical experts within the department, moving toward the discovery of economic deposits. You will also supervise project staff and contractors and provide coaching and mentorship of junior personnel in making critical observations and interpretations that lead to collaborative targeting decisions. You must be committed to developing a strong safety and environment culture, promoting it through Cameco's safety, health, environment, and quality (SHEQ) management systems. We are looking for a start date to align with our summer programs.

## Requirements of the position:

- Bachelor's degree in geology or geological engineering
- You must be eligible for registration with the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS)
- At least seven years of relevant work in mineral exploration of hydrothermal systems
- Ability to work in remote locations for extended periods of time
- Digital literacy with various office and geological software programs
- Excellent communication, interpersonal, and analytical skills and willing to work in a team environment

## Assets:

- First Aid, ATV, watercraft, and/or snowmobile training
- GIS and 3D geological modelling
- Graduate degree in geology
- Previous uranium experience

Preference will be given to Residents of Saskatchewan's North (RSN).

## We offer:

- **competitive pay**
- **superior benefits**
- **employee share ownership plan for all employees**
- **Live Better wellness program**
