

Hughes Recruitment is pleased to present an exciting opportunity on behalf of our client.

**Role:** BIM Technologist - Structural

**Location:** Saskatoon, SK

## OUR CLIENT

Our client is one of Canada's leading engineering firms. Recognized as an exceptional workplace, they mentor the next generation of Canada's 'best and brightest' engineers and technologists. Specializing in structural engineering, building science, structural restoration, structural glass engineering, parking facility design, and building energy modelling they challenge their people to push technical boundaries.

Our client is very well established across Canada and is excited to grow a new market in Saskatoon with the support and expertise of their Edmonton team. Being creative thinkers who provide practical results for clients and projects nationwide, they also nurture leadership in their teams' fields of practice and support opportunities for them. Helping everyone in the team realize their full potential and supporting them to excel both in their careers and in the local communities is a key value for them.

## THE OPPORTUNITY

Our client is looking for an experienced BIM - Structural Technologist who has an abundance of self-motivation and a drive to succeed. You will be a fast learner with a passion for design, construction, and the latest industry tools. You have a strong interest in working on exciting and challenging projects and embrace progressive change, out of the box thinking and hard work. You will discover new and developing technologies, practices and techniques and get to fine tune your skills and nurture your talent while pursuing your professional goals.

As the BIM Technologist in Saskatoon, you will report to the Regional Manager and work on helping to build the Saskatchewan focus with the support of the Edmonton Team, by providing

exceptional client service and developing technical expertise to deliver practical, creative solutions. You will produce drawings on a variety of buildings including commercial, residential, institutional and sports/recreation complexes and your desire to grow will be supported by leading specialists throughout the company who love to share their expertise.

## KEY RESPONSIBILITIES

As the BIM Technologist you will:

- Develop finished building models and drawings from general conceptual information and design notes
- Co-ordinate the client's drawings with those of other disciplines on projects
- Provide project drafting and be accountable for schedule and efficiency
- You will be accountable to Project Engineers for drawing production and quality
- Help the design be more easily communicated through your drawings
- You will love to work as part of a team, to produce drawings on a variety of projects
- Co-ordinate and overlay drawings of other team members to resolve drawing co-ordination in development of detailed design of projects

## QUALIFICATIONS

As the BIM Technologist, you will bring:

- Diploma in Civil/Structural Technology or an equivalent program recognized by Technical Professionals Saskatchewan ([www.tpsk.ca](http://www.tpsk.ca))
- It is essential that you have a minimum of five years' experience working with REVIT and are able to illustrate strong technical skills in REVIT 2019, BIM 360, and NavisWorks
- Solid experience in construction and/or consulting services
- Candidates have or will obtain and maintain registration with Technology Professionals Saskatchewan

- You know how a building goes together using your structural drafting knowledge, and what a great set of drawings should communicate
- You are a fast learner who can communicate effectively both verbally and in writing
- As a team player, you are assertive and able to work with minimal direction
- Hard work and taking responsibility come quickly and naturally to you
- You are an inquisitive, clear thinker who can determine what work is required and you can draw rational conclusions from information available
- Attentive to detail and have a desire to grow professionally and personally
- You can conceptualize structural and architectural details in three dimensions
- Being dependable and willing to put the work in to get a project completed on time is standard for you
- Your focus is always committed to client service and technical excellence

## WHAT OUR CLIENT OFFERS

Here are a few reasons why others have joined our client's team:

- An employee-owned organization providing greater opportunity
- A genuine passion for promoting long term learning and professional development
- A drive for continuous best practice and innovative ways of working
- An extensive Health Benefits package eligible after 3 months with 50% premiums paid by client of extended health and dental premiums
- RRSP with employer matching
- Vision Care
- Health Care Spending Account of \$1,000/year (tax free) – prorated based on benefit start date
- Holiday Bonus
- Profit Sharing/Discretionary Performance Bonus that recognizes your success
- An inspiring workplace that supports its people and recognizes great work
- Stimulating, challenging projects and development opportunities to help you grow your skills and career
- Continuous knowledge sharing with Lunch-n-Learns
- 2-day Structural Conference with presentations by leading experts in company
- DEI Committee promoting diversity, equity and learning throughout the company

## **ABOUT HUGHES RECRUITMENT INC.**

At Hughes, we have REDEFINED RECRUITMENT! We don't just place our candidates into a job, we take time to understand you, your passions, your strengths, and your potential. This approach allows us to connect you with a meaningful, rewarding, and lasting career opportunity.

We pride ourselves on our professional and friendly approach. Hughes supports our clients by understanding their unique business goals and hiring needs in-depth, and then sourcing and placing exceptional candidates with them. We believe in success beyond the placement.
