Competition Number: WSA-21-2023/24

Water Security Agency is looking for an enthusiastic individual to join our Flow Forecasting and Operations Planning unit as an Engineer, Flow Forecasting in our Moose Jaw, Regina, or Saskatoon, SK location. Applicants with the required education will be assessed to determine pay level based on relevant experience.

Reporting to the Manager, Flow Forecasting & Operations Planning, an employee in this job will provide professional engineering expertise for forecasting stream flows for internal and external use, and for operation planning of major river systems requiring the real-time analysis, interpretation and distribution of forecasting and operations management information. This employee will also provide support to associated Water Security Agency (WSA) communication activities.

This position will Analyze and/or assist in the analysis and interpretation of hydrometric and meteorologic data; assist in and/or prepare and distribute stream flow and water supply forecasts; assist in drafting flood alerts and other advisories; and support communications functions related to water supply, water levels, stream flow forecasts and structure operations.

The successful candidate will have a Degree in Civil Engineering or a similar engineering discipline, a licence to practice professional engineering from the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS) and 4 years of related experience.

“Need a Career? Just add Water!”

At the Water Security Agency, you'll have more than just a job - you'll build a rewarding career. Whether you're managing water supply, protecting water quality or ensuring safe drinking water, you can be confident that the work you do will help to support a strong and growing Saskatchewan. Become a member of the team that is committed to being the best water management agency in North America.”

We offer rewarding career opportunities, competitive salaries and a comprehensive benefits package.
