Competition Number: WSA-61-2023/24

Water Security Agency is looking for an enthusiastic individual to join our Groundwater Services unit as Hydrogeologist.

Reporting to the Manager, Groundwater Services, an employee in this job will undertake hydrogeological studies and conduct analysis of hydrogeological issues into meaningful cause and effect relationships. In addition, this employee will provide groundwater information and technical advice to clients and the public, will participate in the day-to-day operation of the provincial groundwater monitoring network, and will undertake technical review of hydrogeological reports. This employee will be responsible for undertaking routine to moderately complex projects or assignments.

The successful candidate will have a Degree in an Engineering or Geoscience discipline, a licence to practice professional engineering or geoscience from the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS) and 4 years of related experience.

Amount of experience typically required in-this-job to become fully competent assuming both the education level required, and the prior experiences are present – 6 years.

Applicants with the required education will be assessed to determine level based on relevant experience.

If you have specific questions regarding this position, reach out to hr@wsask.ca and the recruitment team would be happy to discuss the opportunity further.

“Need a Career? Just add Water!”

At the Water Security Agency, you'll have more than just a job - you'll build a rewarding career. Whether you're managing water supply, protecting water quality, or ensuring safe drinking water, you can be confident that the work you do will help to support a strong and growing Saskatchewan. Become a member of the team that is committed to being the best water management agency in North America.”

We offer rewarding career opportunities, competitive salaries, and a comprehensive benefits package.
