The Ministry of Environment's role is to manage the health of Saskatchewan's environment in a responsible manner that supports sustainable growth through objective, transparent and informed decision-making and stewardship. We provide objective, evidence-based advice to decision-makers and deliver programs in a fair, impartial manner aligned with government-directed policy. We are dedicated to service excellence, we demonstrate innovation, collaboration and transparency, practice effective and accountable use of resources and promote engagement and leadership at all levels.

The Emissions Management and Compliance Unit within the Climate Resilience Branch is seeking a Professional Engineer committed to service excellence to join our team as a Senior Emissions Engineer. The unit provides regulatory oversight for Saskatchewan's Output-Based Performance Standards (OBPS) Program, which is designed to incentivize growth, operational efficiencies and technology innovation to reduce greenhouse gas emission intensities while protecting industrial economic competitiveness. Reporting to the Manager of Approvals and Compliance, the Senior Emissions.

Technical Knowledge and Skills:

- Expert knowledge of engineering principles, applications, and quantification methodologies related to greenhouse gas emission intensity calculations. Knowledge of measurement, reporting and verification of GHG emissions under ISO 14064-3.
- Knowledge of operations and processes from emission-intensive trade-exposed (EITE) sectors in Saskatchewan.
- A strong understanding of GHG and related environmental legislation, guidelines, policies and procedures and their application.
- Ability to explain technical and nontechnical information, both in writing and verbally, to a variety of stakeholders with varying levels of understanding.
- Ability to effectively manage competing priorities and timelines.
- A degree in engineering, supplemented with a strong foundation in measuring, quantifying and reporting greenhouse gas emission intensities.
- 5+ years of relevant professional engineering experience.
- Must be registered professional engineers within their jurisdiction and eligible for membership with the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS).
