

The City of Warman invites applications for the position of Municipal Engineer

The City of Warman is seeking to fill the full-time position of Municipal Engineer working at the Public Works location. This position reports directly to the Director of Infrastructure, Planning and Development. The Municipal Engineer is responsible for providing professional engineering expertise for the planning, design, review, construction, renewal and long-term stewardship of municipal infrastructure for the City. The position supports safe, sustainable, cost-effective and compliant infrastructure services including transportation, water, wastewater, stormwater, drainage, land development, asset management and capital project delivery.

Requirements:

- Bachelor's degree in civil engineering or a related engineering discipline from a recognized institution. Must be registered in good standing, or eligible for registration, as a Professional Engineer, Engineering Licensee, or Engineer-in-Training with the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS), as appropriate to the level of responsibility assigned.
- Demonstrated experience in municipal engineering, infrastructure planning, design review, construction, contract administration, project management, and asset management.
- Four to six years of related experience in municipal infrastructure, which may include transportation, roads, stormwater and drainage, water distribution, wastewater collection, land development, construction, and utility coordination.
- Proficiency with Microsoft Office and engineering, design, GIS, asset management, project management, records management, and collaboration software.
- Valid Class 5 Saskatchewan driver's license, satisfactory driving record, and ability to travel within the City and region as required.

The City offers competitive wages and benefits package.
