If you are working as an engineer or geoscientist, how many hours do you anticipate working in the profession this calendar year? 485				hours	
	Sontio	n 3. Situation Det	aile		

Describe why you require a Variation for the above specified year: (if more space is needed, attach a second page)

I was working full-time from Jan 1 to Mar 31, 2022, less some vacation time. (40 hr/wk for 11 working weeks = 440 hrs. 440 hrs/15 = 29 Professional Practice credits earned)

I have retired as of April 1st. Using the credits I have earned to date along with my banked credits, I can claim 57 credits so far. I may consult on a small contract later this year (anticipate 45 hours of work). I also need to complete my ethics training for the year. Therefore, I believe I can claim 61 credits for 2022.

Section 4: Certification

I hereby certify all information in this application to be true and complete to the best of my knowledge, and that I have not withheld any information that may have a bearing upon the consideration of this application.
