

# Employment Opportunity

## Orano Canada

### Manager, Engineering and Design (Saskatoon)

This is an exciting opportunity to lead a talented team of engineers and designers, champion continuous improvement, and help deliver projects that contribute to a sustainable future. Working collaboratively across teams, you'll play an integral role in shaping innovative solutions and achieving safe and successful project outcomes. If this opportunity excites you, we encourage you to apply!

At Orano Canada, you are part of the global clean energy transition. Our uranium fuels safe, low-carbon nuclear power, supporting climate goals with a strong commitment to safety, sustainability, and community. Working at Orano means you'll be doing work that matters.

#### **Dare to do something different.**

**Dare to Take Action.** Contribute to clean energy while gaining full lifecycle experience on world-class Saskatchewan uranium projects—backed by Orano Group's global expertise.

**Dare to Care.** Safety isn't just a priority, it's who we are. We put our people first. No compromise, we aim for the highest standards.

**Dare to Invest.** We're investing in the future of Saskatchewan and we create careers that matter. Invest in your future.

**Dare to Belong.** Here, your contributions matter. Enjoy the security of a global leader with the supportive feel of a close-knit team.

**Dare to Innovate.** Join experts driving innovation in processing, tailings, and environmental performance. We need bold thinkers to guide the way.

#### **What you'll accomplish:**

- Provide leadership and direction to the engineering team, ensuring safe, effective, and technically sound project execution
- Develop team capability through coaching, mentoring, workforce planning, and succession development
- Establish and maintain engineering standards, governance processes, and technical review practices
- Support major studies, capital projects, and facility expansions through technical, economic, and risk-based evaluations
- Ensure compliance with applicable regulations, permits, licenses, company standards, and Management of Change requirements
- Collaborate with cross-functional stakeholders to deliver practical, operable, and sustainable engineering solutions
- Manage technical, cost, schedule, and execution risks while driving continuous improvement across engineering processes and performance
- Support departmental budgeting, forecasting, and resource planning activities
- Communicate engineering priorities, performance, and strategic objectives to stakeholders
- Comply with all health, safety, environmental, and regulatory requirements

- Perform other duties as assigned

### **Qualifications and skills we're seeking:**

- University degree in Engineering
- Registered as a professional engineer in the province of Saskatchewan
- 15 years of progressive engineering experience including experience in a leadership role
- Demonstrated strategic and operational thinking skills
- Ability to innovate in the areas of system efficiency, capital and operating cost optimization
- Excellent analytical, interpersonal and communication skills, both written and verbal
- Ability to lead and interact in a team environment, as well as working independently
- Establish collaborative relationships built on trust and commitment at multiple levels across internal and external teams.
- Co-ordinate activities, information, materials or resources within own area of responsibility to meet deadlines

### **Work Location & Travel:**

- Saskatoon
- Travel to Orano northern mine and/or project sites is required

**Salary Range:** \$162,000 - \$190,650

Compensation to be determined based on the selected candidate's level of skill, education, and experience, and may vary within the posted salary range.

### **Benefits and advantages of working with us:**

- Competitive salary and benefits package
- Training and development opportunities
- Fitness equipment available for use on work/camp premises
- Career advancement opportunities, social committee, interesting projects and opportunities to get involved in our strong commitments to communities

*As a condition of employment the successful candidate must complete Orano's pre-employment checks including education verification and employment reference checks.*

*Drug (including marijuana) and alcohol substance testing is a requirement for all Safety Sensitive positions. Applicants who have recently used marijuana recreationally may not pass a substance test as marijuana can remain in the user's system for as many as 30 days after use.*

*Orano is an equal opportunity employer. We value the knowledge, experience and cultures of all individuals and are committed to the advancement of Indigenous Peoples, Women, Visible Minorities and People with Disabilities. We strongly encourage all qualified candidates from these designated groups, including those with disabilities, to apply for our career opportunities. We are dedicated to creating an accessible workplace for everyone.*

**Apply online at [www.orano.group/jobs/en](http://www.orano.group/jobs/en) by November 16, 2026.**
