

Free Learning Sessions

Are you looking to feel more confident in your qualified person (QP) duties for the Saskatchewan Environmental Code? Join us for a free virtual learning session designed specifically for QPs like you.

Why Attend?

- **Understand how to become a QP:**
Understand the ministry's expectations to ensure that you are qualified to make submissions under the code; and learn how to become qualified.
- **Halocarbon Control:**
Learn about the halocarbon control requirements for QPs in Saskatchewan.

Once registered, you will receive a ZOOM meeting invite immediately. Registration closes the day before each session.

The Ministry of Environment will host information sessions for QPs under divisions B and E of the Saskatchewan Environmental Code. Attendees may register for either or both sessions:

Halocarbon Control Chapter
