

Engineer II, Project Engineering

Division: Infrastructure

Unit: Owner's Engineering

Location: Moose Jaw, Regina or Saskatoon, SK

Annual Wage: \$95,280 - \$119,100 (MC6)

Competition Number: WSA-32-2026/27

Applicants with the required education will be assessed to determine level based on relevant experience.

Are you an engineering professional with strong technical skills and a passion for solving problems and delivering quality projects? Join our team as Engineer II, Project Engineering and contribute to important water resource and infrastructure projects across Saskatchewan.

This position is responsible for providing project engineering services and support to a broad range of activities directly related to the investigation, design, construction and rehabilitation of water resource management and/or infrastructure management projects.

The successful candidate will demonstrate the ability to manage and deliver water management projects of moderate size and complexity by collaborating effectively with internal teams, engineering consultants, regulators, landowners, and other stakeholders.

The role requires strong judgment and attention to detail in preparing engineering documentation, administering contracts, and supporting construction to ensure work meets design, safety, and regulatory requirements.

The candidate will have a Degree in Civil Engineering or a similar engineering discipline, a licence to practice professional engineering from the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS) and 10 years of related experience.

This role is subject to a satisfactory criminal record check.

We offer rewarding career opportunities, competitive salaries, and a comprehensive benefits package.
